Online Learning Questions and Answers for Families
"Moving Forward with Compassion and Grace"

We are mindful of the fact that:
- Not all students will have internet access immediately and many may be sharing devices.
- Students will have a variety of personal and academic schedules; therefore, students will not be required to attend LIVE lesson sessions. LIVE teacher sessions will be recorded for students to access at flexible times.
- Compassion and grace is our motto. Flexibility is key in the educational process during this time of crisis.
- For Coronavirus updates and related resources, go to Okaloosa Schools.

Online Learning Protocol

How much time will students be expected to spend online? Students *will not* be expected to devote the same amount of time on an electronic device as they spend attending an average school day in the school building. The amount of suggested screen time varies by the age of the student and the course. Consult the attached sample online learning schedules for grades K-2, 3-5, and 6-12 for guidance.

- **Kindergarten through 2nd grade:** *Up to 2 hours per day* broken down into sessions of 25 minutes or less.
- **3rd through 5th grade:** *2 to 3 hours per day* broken down into sessions of 30-40 minutes or less.
- **6th-12th grade:** *3 to 4 hours per day* broken down into sessions of 40-60 minutes or less.

   Times are approximate and can be adjusted to meet the needs of individual students.

Getting Started

How will my child's teacher make <u>initial</u> contact with my child(ren)? Initial contact could be through a variety of formats (Remind, ClassDojo, email, phone call, etc.). Contact will be made by Friday, March 27, 2020.

What is the OCSD Online Assignment link? An ***OCSD Online Assignment link*** has been developed for individual teachers on school faculty webpages for communication between teachers and students. Training for how to use the ***OCSD Online Assignment link*** will be available on the district website under Resources for Online Learning. All teachers will post assignments by subject area as well as office hours and general directions for accessing the online curriculum via the ***OCSD Online Assignment link.*** Information and instructions will be updated at a minimum, weekly. Remember, online instruction begins March 30; therefore, your child's first assignment should be posted by the end of the day on Friday, March 27.

What is ClassLink? ClassLink is where students must go to access the majority of their coursework as well as many supplemental programs. ClassLink offers single password access to many online programs and is available from anywhere. If your child doesn't know their single password, please contact one of their teachers.

How do I access [***ClassLink***](https://www.okaloosaschools.com/files/_site/online-learning/students/technology/Quick-Guide-How-to-Get-to-ClassLink-from-Different-Devices.pdf)***?*** https://www.okaloosaschools.com/files/_site/online-learning/students/technology/Quick-Guide-How-to-Get-to-ClassLink-from-Different-Devices.pdf

Communication

How often should I expect communication with my child's teacher(s)? At a minimum, teachers will communicate with their students weekly.

If my child has a question, how does my child contact their teacher? Teachers will post their online office hours on their **OCSD Assignment link**. During these hours, teachers will be available to support students and families. For example: immediate responses to emails, video chats via various platforms, etc., could occur during office hours. Students may contact their teacher through email, Remind, Class Dojo, etc. **BE AWARE!** Potentially, the programs being used with calling features could show up on your phone as 'Spam Risk'.

Will my child's teacher host live online lessons?   It is possible, but we realize students cannot be required to attend LIVE lesson sessions due to potential scheduling conflicts. Any LIVE lessons will be recorded for viewing at flexible times. However, most content area instruction will be delivered in a self-paced curriculum program that doesn't require teachers to provide LIVE lessons.

OCSD Online Learning

What does online learning look like for my child?

- Elementary online learning will consist of the following:
    - ELA/Math will be a self-paced curriculum called Odysseyware.
    - Science/Social Studies will utilize current online textbook resources (Science-Pearson and Social Studies-Studies Weekly). These assignments will be posted in teacher **OCSD Assignment link**s.
- Secondary online learning will consist of the following:
    - ELA/Math/Science/Social Studies/World Languages will be a self-paced curriculum called Edgenuity, unless otherwise directed by your child's teacher.
        - A complete course list can be found at the end of this document.
    - All other electives will be directed by your child's teacher and posted in the **OCSD Assignment link**.

How does Edgenuity/Odysseyware* work? The Edgenuity/Odysseware online platforms provide a complete curriculum and instruction with self-paced lessons and quizzes.   Home-language support is embedded for English Language Learners.

How will my child access Edgenuity/Odysseyware*? An icon will be available to students through ClassLink.

What is my role in Edgenuity/Odysseyware*? The parent's role will include monitoring your child's progress. Parents can view the percentage of course completion and grades on Student Dashboard.

What if my child completes the Edgenuity/Odysseyware* course before the nine weeks is over? This is perfectly acceptable. This is a self-paced program; therefore, some students will finish early while others may need additional support. If we continue online for the remainder of the year, students will need to complete all curriculum by the end of the nine-week grading period. At this time, the last date for submitting assignments will be May 29th, 2020. If this date changes, teachers will relay the information.

Other Courses

How will my child turn in assignments for non-Edgenuity/Odysseyware* courses? Teachers will post information on how to turn in assignments on the **OCSD Assignment link**. For example: email, Google Classroom, etc., are some possible options.

Support

Technical Support - Contact the Helpdesk at (850) 897-2966.

Curriculum Support – Contact your child's teacher.

*Odysseyware is the platform for elementary Edgenuity.
